

REMARKS

In response to Notice of Allowability dated August 22, 2005 please amend the specification as presented above. Applicant wishes to thank the Examiner for the indication of allowance and the thorough examination. Since the amendments to the specification presented above only correct grammatical errors and clarify languages of the claims, Applicant believes that the amendments do not necessitate further substantive examination or introduce new matter. Accordingly, Applicant respectfully requests entrance of the amendment under 37 C.F.R. §1.312 and prompt issuance of the patent.

Respectfully submitted,

Kiyoe K. Kabashima
